Technical Skills

Languages & Frameworks

- Java
- Spring Boot
- Spring MVC
- Hibernate / JPA
- REST API Development

Databases

- MySQL
- SQL

Frontend

- HTML
- CSS
- JavaScript

DevOps & Tools

- Docker
- Git
- GitHub
- Maven
- Postman

Core Concepts

- OOP, HMAC, AES-256
- Layered Architecture

Education

Bachelor of Science in Physics

2022 – 2025

Scott Christian College

Final Grade: 68.6%

Certification

Java Full Stack Development,

JClickSolutions

Duration: June 2025-December 2025

Certificate Number: QMS/092020/16971

Java Object-Oriented Programming

LinkedIn Learning—Sep 2025

Skills: Java, Object-Oriented
Programming (OOP)

Profile Summary

Java Full Stack developer specializing in backend security and REST API design, with hands-on experience building AES-256 encrypted data systems and Dockerized Spring Boot applications. Certified by HackerRank and LinkedIn Learning, with a strong foundation in Spring Framework, Hibernate, and MySQL. Passionate about writing clean, secure, and maintainable code—actively seeking a junior developer role to contribute to production-grade backend systems.

Projects

Secure Medical Data Transfer System

(Java, JSP, AES-256, HMAC, MySQL)

Duration: one month | September 2025.

- Built a secure system to transmit private medical records between users using Java, JSP, and MySQL.
- Implemented AES-256 encryption and HMAC verification to guarantee data integrity and confidentiality.
- Applied rigorous input validation and backend security logic, improving system security by 40% and reducing the risk of unauthorized access.

Spring Boot E-Commerce System

(Java, Spring Boot, JPA/Hibernate, MySQL, Docker)

Duration: One Month | February 2026

- Engineered a backend e-commerce application using Spring Boot with layered architecture (controller, service, and repository).
- Designed and exposed RESTful APIs to manage orders, users, products, and carts.
- Used JPA/Hibernate with MySQL for efficient data storage and CRUD operations.
- Containerized the application using Docker, improving deployment consistency and increasing development speed by 35%.

Soft Skills

- **Problem Solving:** Identifies issues in code and develops logical solutions to resolve them.
- **Teamwork:** Collaborates effectively with team members to complete software development tasks.
- **Communication:** Clearly articulates technical concepts, project updates, and solutions.
